INNOVATION PRODUCT   Auto Assist Paper Towel Dispenser

Jam-Free

Auto Assist Paper Towel Dispenser

P870A

- Dual Functionality. Offers both Manual and Sensor modes in a single device
- Automatic next sheet feeding by 60mm after pulling, under both modes
- Battery Saving. Special blade angle designed for easy paper cutting
- LED Paper remaining warning indicator
- LED Low battery warning indicator
- Operates with 4xC (LR14) alkaline batteries, 3.7V lithium batteries, or 6V DC adaptor
- Roll support options: 35mm, 45mm.Other core sizes, coreless support are made upon request

PATENT PRODUCT — Enriched Foam Dispensing Module

A new way to dispense foam soap in cost-efficient and technically reliable way.

FEATURES:
- No traditional foam pump needed
- A mini air compressor to replace motor and gear system
- Dose size can be adjusted, default setting at 0.6ml
- High air/liquid ratio provides excellent foaming performance
- Bottle customizable for different volume and shape

BENEFITS:
- No pump replacement required; Less cost
- Simple operation and maintenance
- 4 pcs AA batteries (LR6) last 20 liters of soap, or 50,000 times of action

INNOVATION HIGHLIGHTS

Upside Down Foam Pump Made Specially For Dispenser Use

01 Disk valve design supports upside down use. Provides excellent sealing performance, stable dosage, and good foam

02 External spring design, makes no contact with liquid, real hygienic

03 Soft ring extends life time

04 No leakage when pre-pressed due to the disk vale design

100K Activations

Ball Valve designs was not intended for upside down use. The ball falls and creates gaps, causing unstable dosage and bad foam **01**

Internal spring design, allows contacts with liquid, not hygienic **02**

Hard seal breaks air vacuum **03**

When pump pre-pressed liquid leak out continuously because of no valve in the tradition pump **04**

**Faner New Pump**
Design For Dispenser Use

Traditional Pump
Not Intended For Dispenser Use

Upside Down Soap Pump Made Specially For Dispenser Use

01 Disk valve design for upside down, good at sealing performance stable dosage

02 External spring design, no contact with liquid, real hygienic

60K Activations

03 When pump pre-press liquid Not leak out continuously benefit by internal vacuum sealing by the disk valve

Ball Valve designed Not for upside down, the ball flows creates gap cause dosage not stable **01**

Internal spring design, contacts with liquid, not hygienic **02**

Fill Full Soap

When pump pre-press ball vale is open in upside down use liquid leak out from the gap **03**

Solenoid Valve Aerosol Dispenser

PATENT PRODUCT Solenoid Valve & Quick Mounting

Patent

Solenoid Valve "Isolated"

Solenoid Valve

FEATURES:
- Solenoid valve, no traditional motor-gear system needed
- Quick mounting structure
- Suitable for uses in various industries, including fragrance, odor control and pest control

BENEFITS:
- Micro size of solenoid valve
- Dose size can be adjusted to extreme small or big
- Stable spraying performance
- Easy loading solution

Patent

Quick Mounting Device For Canister

Ø 65mm Aerosol Refill

PATENT PRODUCT 6400

H: 120mm

Solenoid Valve Aerosol Dispenser

6400

- Patent product with solenoid valve and quick mounting structure
- Diverse industry utilization, with special spraying angle at 45 degree upwards
- Easy loading and releasing can
- Working with 3pcs AA size alkaline batteries (LR6)
- Simple interval setting of 7.5/15/30 minutes
- Available for continuous valve and universal refill of diameter 65mm;
- Adjustable dose size with three switch options MAX/MED/MIN
- Security key and lock
- Polypropylene material, eco-friendly and chemical-resistant
- Color options: white and customized colors

Aroma Gellan Gum

Since its early establishment, FANER has been primarily focused on the core business of Gellan Gum. Over the years, we have gathered extensive experience in various aspects, including but not limited to formula creation, structure design, odor & reliability testing, maintaining competitive pricing and meanwhile ensuring stringent quality control. Our accumulated expertise makes us capable of developing customized scented Gellann Gum products.

1. Formula creation & Structure design
FANER has gained invaluable expertise working with some of the world's largest daily necessities supply companies and supplying to various nations. Years of practical experience, keen insight into market trends, and technical know-how are some of our most significant advantages.Based on these we are able to create customized formula and design specific structure to meet your need.

2. Odor & reliability testing
We have designed and conducted in-house testing process, covering chemical analysis, site odor check, shipping emulation, etc. to eliminate potential risks, waste in time and costs. Along with 3rd party testing and analysis, to ensure reliability of each unit gellan gum product.

3. Competitive price
Automation projects including injection, printing, assembly and packaging equipment have launched since 2014, and have been upgrading from time to time, to enhance production capacity and optimizing production ability. These strong bases lead us able to propose competitive prices.

4. High capacity
High production capacity up to 100,000pcs per day.

5. Quality control
FANER as a qualified supplier, has been running strict inspections throughout the whole production process including incoming material, storage warehouse, production, packaging and shipping. Our standard facility, validated equipment, well-trained employees and complete SOP also builds a strong foundation in quality control. Making sure each gellan gum product is well qualified.
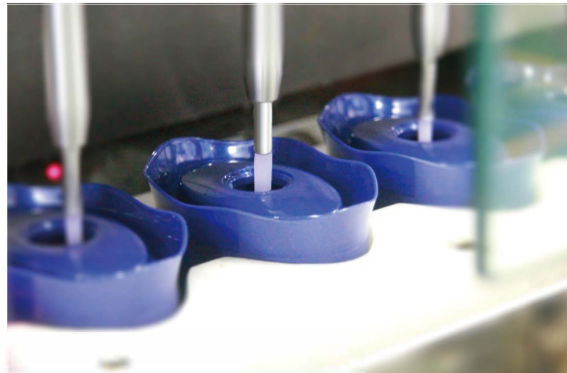

Air Freshener

Aroma Gellan Gum Air Freshener

- Elegant design, 180g
- Adjustable intensity, simply by lifting cover up or down
- Optional fragrances: Starry sky, Rose, Lemon, Lavender, Green tea and customized options
- Long-lasting scent up to 1 month
- Available for ODM and OEM business
- Efficient automated production, daily capacity up to 100,000pcs

Fragrance Liquid Can Air Freshener

- Universal size of 100ml
- Adjustable intensity, working with or without paper wick
- Available for Fan Dispenser series
- Optional fragrances: Lavender, Rose, Lemon, Ocean and customized options
- Long-lasting scent up to 1 month

FC-OC9100

Fragrance Wooden Wick Air Freshener

- Compact size
- Available for Faner Dispenser series
- Optional fragrances: Lavender, Rose, Lemon and customized options
- Long-lasting scent up to 1/2 month

Car Air Freshener

- Mini size
- Special design of simple click-on
- Available for various occasions: Car, vent, air conditioner, fan, etc.
- Customizable fragrances
- Long-lasting scent up to 1/2 month
- Available for ODM and OEM business
- Efficient automated production

Skin Care Refills

Optional refills including:
Foam Soap
Lotion Soap
Alcohol Foam
Alcohol Sanitizer

- Special formula creating both pleasant scent and excellent cleaning performance
- Optional refill volume: 500ml, 600ml, 800ml, 1000ml, 1200ml and customizable volume
- Hygienically sealed
- Space saving
- Verified quality
- Customizable refill fragrance and color
- Available for ODM and OEM business

1. Foam Soap Refills
SKU# 19082804

- Enriched foaming performance
- Up to 2500 times of dosages with 1000ml volume

2. Lotion Soap Refills
SKU# 19082803

- Special antibacterial formula for good cleaning performance
- Up to 1000 times of dosages with 1000ml volume

3. Alcohol Foam Refills
SKU# 19090405A

- Water-free foam sanitizer
- Enriched foaming performance
- Up to 2500 times of dosages with 1000ml volume

4. Alcohol Sanitizer Refills
SKU# 19082801A

- Fragrance-free and Water-free alcohol sanitizer
- Up to 1000 times of dosages with 1000ml volume
